

MMSI & Call Sign

All commercial and recreational vessels bearing DL registration, outside of US waters, are obliged by the International Telecommunication Union (ITU) treaty to obtain and program Maritime Mobile Service Identity (MMSI) number in their Digital Selective Calling (DSC), Automatic Identification System (AIS) equipment or INMARSAT ship earth station. MMSI is a unique nine-digit number assigned to ship stations by the Federal Communication Commission (FCC) for search and rescue purposes. Call Sign should be assigned to each radio station prior to any international telecommunication. As one of just few private registered agents by FCC we are able to obtain your MMSI & Call Sign within 24 hours.

**Has this ship already been assigned a four (4) letter call sign (e.g. WXYZ) by the FCC?
 Are you required by law or treaty to carry a radio on your vessel?
 Does your vessel travel to foreign ports?
 Do you use marine radio equipment on board your vessel other than marine VHF radios, EPIRBs (Emergency Position Indicating Radio Beacon), and radar?**

Licensee Type & Name

Individual Name: or Entity Name:

Licensee Address (it has to be in U.S.):

Attention To	Street Address
Phone	City
Fax	ZIP code
Email	P.O.Box

Has the applicant or any party to this application, or any party directly or indirectly controlling the applicant, ever been convicted of a felony by any state or federal court?

Ship Name:

Official Ship Number (Coast Guard No. or State Registration No.):

Will ship make international voyages?

Will ship communicate with foreign coast stations?

Radiotelegraph NB-DP/DSC Equipment

- I have Radiotelegraph (2000-27500KHz) on my vessel and the FCC has not yet assigned a Morse working series to my vessel.
- I have Digital Selective Calling (DSC) equipment and /or Radiotelegraph NB-DP and need a new 9 digit Maritime Mobile Service Identity (MMSI). **Do not** check this box if you already have been assigned a 9 digit MMSI by the FCC or have received a 9 digit MMSI by commissioning an INMARSAT B, C, or M terminals through COMSAT/Lockheed Martin.
- MMSI Number (if already assigned):

The U.S. Coast Guard has requested that the following information be provided to assist in possible search and rescue operations.
